CREDENTIALS

ABOUT US

We create brands that matter.

Logo.co.zw is a boutique agency that was born out of a single philosophy; ***everything we do must lead to the return of tangible results for our premium clients.*** That means everything we touch, from strategy and ideas to logo design and development, is custom built to achieve commercial success.

OUR CLIENTS

We create premium logos for our premium clients.

We have learned to be fussy about who we create logos for. Logo.co.zw is founded on the principle of, fewer clients, more results. We love working with clients who value their companies and brands. We love working clients that have a long term vision and plan for their brands.

We work with less than 10% of the companies that request work from us.

PRICING

Fewer clients, more results.

Our pricing is indicative of the quality of work and service you will receive when you engage us.

Don't develop something that makes you one of the trees in the forest and then spend the rest of your marketing budget trying to stand out. Get it right the first time.

WORK

We create brands that matter.

Let's make some magic. Get in touch
